VOLUME 22 CONTENTS

Vol. 22, No. 1

C. B. Wilson	1	To readers and contributors
B. Andersson, M. Adegran, T. Webster, W. Place, R. Kammerud and P. Albrand	3	Effects of daylighting options on the energy performance of two existing passive commercial buildings
B. Andersson, M. Kantrowitz, P. Albrand, T. Webster, M. Adegran and R. Kammerud	13	Effects of occupant issues on the energy performance of two existing passive commercial buildings
K. A. Landman and A. E. Delsante	49	Steady-state heat losses from a building floor slab with vertical edge insulation—II
K. A. Landman and A. E. Delsante	57	Steady-state heat losses from a building floor slab with horizontal edge insulation
R. Niemelä, E. Toppila and A. Tossavainen	61	A multiple tracer gas technique for the measurement of airflow patterns in large industrial premises
M. Zaheer-Uddin	67	The influence of automated window shutters on the design and performance of a passive solar house
C. Hall and M. H. R. Yau	77	Water movement in porous building materials—IX. The water absorption and sorptivity of concretes
J. K. Nayak	83	Thermal performance of a water wall
Announcements	91	The Fourth International Symposium on Robotics and Artificial Intelligence in Building Construction, Technion
		International Symposium: New Developments in Building Climatology
		2nd International Conference and Exhibition on Construction in Areas of Abandoned Mineworkings: MINEWORKINGS—88
		International Conference and Exhibition on Civil, Structural and Aeronautical Engineering Design: DESIGN—88

Vol. 22, No. 2

S. Kendall	93	Notes on 'open systems' in building technology
B. W. Jones and T. Oreszczyn	101	The effects of shelterbelts on microclimate and on passive solar gains
L. Davidson and E. Olsson	111	Calculation of age and local purging flow rate in rooms
E. H. Mathews and J. P. Meyer	129	Numerical modelling of wind loading on a film clad greenhouse
B. V. Venkatarama Reddy and K. S. Jagadish	135	Spray erosion studies on pressed soil blocks

M. A. Rahman 141 Effects of cement–lime mixes on lateritic soils for use in highway construction

Announcement 147 Joint Research Effort

Vol. 22, No. 3

A SPECIAL ISSUE IN HONOUR OF HENRY J. COWAN, A.O.

B. Wilson 149 In honour of Professor Henry J. Cowan, A.O.

J. S. Gero 151 Introduction to a collection of papers in honour of Henry J. Cowan

W. G. Julian 155 Lighting: an urgent case for a major research effort in architectural science

P. R. Tregenza 163 Cloud cover and daylight illuminance

N. A. D'Cruz and A. D. Radford 167 A multicriteria model for building performance and design

P. J. Jones and P. E. O'Sullivan 181 Energy efficient design of industrial buildings

D. J. Oldham and M. A. Rowell 189 Computer applications in building and environmental acoustics

P. Manning 201 Environmental evaluation

J. Pohl and A. Chapman 209 Probabilistic project management

A. T. Purcell 215 The relationship between buildings and behaviour

M. G. Salvadori 233 The Anasazi cribbed domes

Announcements 237 PLEA 88
Decommissioning

238 Healthy Buildings '88
Traditional Dwellings and Settlements

Vol. 22, No. 4

P. Sauer 239 An annual driven rain index for China

N. S. Billington 241 The evolution of environmental temperature

B. L. Sarkis and K. M. Letherman 251 Heat flow rates and temperature distributions in corners of external walls with non-isothermal surfaces

N. K. Bansal, M. S. Sodha, S. Ram and S. P. Singh 259 Evaluation of complex heat transfer coefficients for passive heating concepts

M. F. El-Refaie 269 Performance analysis of external shading devices

P. J. Littlefair 285 Prediction of reflected solar dazzle from sloping facades

P. H. Baker, S. Sharples and I. C. Ward 293 Air flow through cracks

J. R. Waters and M. W. Simons 305 The evaluation of contaminant concentrations and air flows in a multizone model of a building

P. O. Olomolaiye, K. A. Wahab and **A. D. F. Price** 317 Problems influencing craftsmen's productivity in Nigeria

M. A. Rahman 325 The potentials of lateritic soil–clay and clay–sand mixes in the manufacturing of bricks for masonry units

M. A. Rahman 331 A comparative study of the potentials of rice husk ash on cohesive and cohesionless soils
